*“CLNC® consultants have consulted on cases as simple as a neck injury caused by an auto accident, as high-profile as the Rodney King case and as ground-breaking as Fen-Phen, Vioxx®, silicone implants and toxic mold litigation. ### WHAT IS A CLNC® CONSULTANT?

A Certified Legal Nurse Consultant<sup>CM</sup> is a registered nurse who has successfully mastered the rigorous CLNC® Certification Program developed by the company that pioneered the field of legal nurse consulting. The CLNC® consultant has the expertise to quickly pinpoint and interpret medical and nursing issues in any case involving health, illness or injury.

### WHY DO ATTORNEYS NEED CLNC® CONSULTANTS?

While the attorney is the legal expert, the Certified Legal Nurse Consultant<sup>CM</sup> is the expert on the healthcare system and its inner workings. Nowhere else will you find this level of cost-effective expertise for reviewing medical records and understanding the terminology and subtleties of healthcare.

### WHEN SHOULD YOU CALL A CLNC® CONSULTANT?

From the moment a potential case comes in, the CLNC® consultant becomes an invaluable asset by identifying the medical issues, screening the case for merit and providing 30 additional CLNC® services relevant to your case.

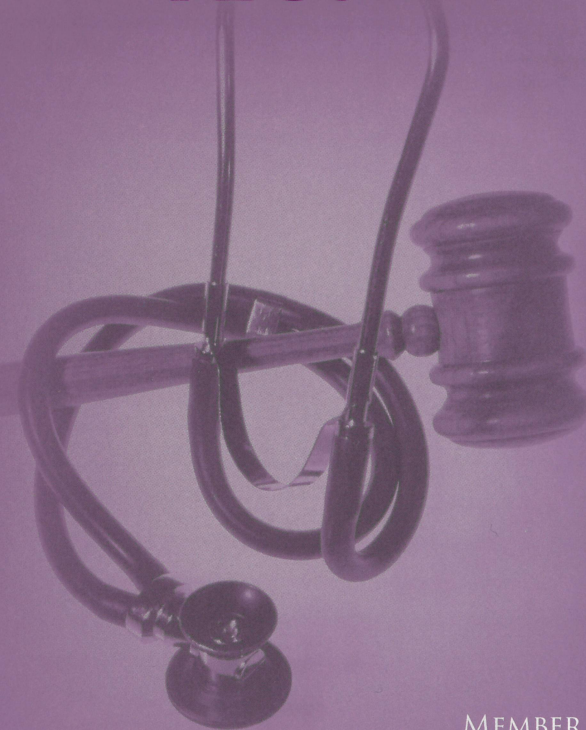

### WHY SHOULD YOU CONSULT WITH A CERTIFIED LEGAL NURSE CONSULTANT<sup>CM</sup> IF YOU’RE ALREADY USING AN MD?

The services of a CLNC® consultant are far more cost-effective than those of a physician. As the healthcare provider who is face-to-face with the patient every day, the CLNC® consultant can educate you about a wide range of medical issues. This knowledge saves you time and money when working with expensive medical experts.

“With a CLNC® consultant on your legal team, you have the **medical expertise** to **uncover** that one vital piece of information that turns your case into a **multimillion dollar** settlement.”
